SMART CITY SOLUTIONS

„SCSEXPO is a young Community, which jointly develops, discusses and transforms the solutions for the cities of tomorrow. The critical exchange of solutions providers, cities and politics is in the center to shape a city worth living, which focuses the citizen in their development.“

VISION

WHY EXHIBIT?

- Geo data as basis of a smart city – profit of the close proximity to the world's leading trade fair INTERGEO!
- Present your company in a scientific support environment and network with partners of applied research!
- Shape the young Community from the beginning with content and influence the urban transformation! Place your topics!
- Free yourself of abstract visions and meet real users from political and urban context!
- Find reliable partners and achieve your projects!
